Dear Mayor and Council Members:

We need the following in order to ensure cycling in Maple Ridge is safe and enjoyable.

- high quality active transportation, i.e. people walking separated from people using bikes, e-bikes, e-scooters and other faster micromobility options;
- uni-directional cycling on both sides of the street (which puts us where drivers expect us to be);
- continuous pathways, i.e. elevated through driveways and intersections to improve safety for vulnerable users (this will help slow down motor vehicles exactly where they cross active transportation infrastructure);
- green paint in conflict zones to improve safety for people cycling;
- ensure that protected active transportation facilities are built all at once along complete segments of the Greenway, Lougheed Hwy and Dewdney Trunk Road, rather than hopscotch as re-development occurs, so that the infrastructure is actually usable.

Thank you for considering these important issues. I look forward to your positive response.

Cathy Walker
